Skills

- Ability to quickly adapt to stressful situations
- Ability to break down technological concepts when needed
- Ability to listen and apply information quickly
- Punctal

Experience

Freelance / IT Support

November 2018 - PRESENT

Worked helping members in my community and others through referrals with their technology problems. I helped transfer data and learned to use many different operating systems

Education

Orange Coast College / Computer science

August 2022 - Present, Costa Mesa

I am presently seeking an associate's degree to advance my career

Coursera / Google Technical Support Fundamentals

July 2022 - September, Online

An introductory multi-course program that, once completed, will gain me a Google IT certificate

Corona Del Mar / High School Diploma

September 2018 - June 2022, Newport Beach

Received a High School Diploma here with a 3.9 weighted GPA

Coastline Community College / A+ It Hardware Course

September 2018 - November 2020, Newport Beach

Projects

I have multiple projects that help me apply the education I have received. These projects have made me learn project management tool and time management. These projects include app and web development. Not all of which are posted to my github

Awards

Received the Golden State Seal of Merit Diploma for High School
Certificate for Google Technical Support Fundamentals from Coursera
